From Director's Desk

A Glorious 20 Years:

**NEW HORIZON PUBLIC SCHOOL,
AIROLI**

"Twenty years ago, a seed was sown, a dream was nurtured, and a journey began."

As we celebrate two decades of excellence at New Horizon Public School, Airoli, I am filled with immense pride and gratitude. Over the years, our school has consistently strived to be a beacon of educational excellence, where every learner's potential is ignited and nurtured. Our past is adorned with milestones - outstanding board results, accolades in sports, arts, and cultural activities

We have witnessed countless stories of success, from academic achievements to personal growth. Our alumni have gone on to make significant contributions to society, embodying the values instilled in them during their time at NHPSA. Looking ahead, we are committed to building upon our legacy and creating an even brighter future for our students. We aspire to be a leading educational institution that not only imparts knowledge but also fosters critical thinking, creativity, and character development.

DR. ABHA JADHAV

We are committed to providing a well- rounded education that equips our students with the skills and knowledge they need to succeed in an ever-changing world.

We strive to foster academic excellence and nurture the holistic development of every student. We believe in providing a supportive learning environment that encourages creativity, critical thinking, and lifelong learning. By combining innovative teaching methods, a strong emphasis on values, and a commitment to personal growth, we aim to create a positive impact on the lives of our students.

I would like to express my sincere gratitude to all our stakeholders, including our dedicated teachers, supportive parents, and committed staff. Your unwavering support and belief in our school have been instrumental in our success. Together, we have created a thriving community where learning and growth are prioritized.

Let this journey continue as we strive to reach new heights, inspire future generations, and make a lasting contribution to the world. As we embark on the next chapter of our school's history, I am confident that together, we will continue to shape the minds and hearts of our students, empowering them to become responsible, compassionate, and successful individuals.

From Principal's Desk

MRS. MONALISA BASU

"New Horizon Public School - a center for learning, growth, personal development, and social interaction"

As quoted by Aristotle,

"Educating the mind without educating the heart is no education at all."

New Horizon Public School serves as a center for learning, growth, personal development, and social interaction - providing its students with a structured environment where knowledge is acquired and skills are developed.

Our school aspires to impart knowledge and foster critical thinking in each of its students. The institution aims to nurture the students with 21st century skills which will help the children succeed in the globalized and rapidly changing world. We ensure holistic development of our students and work sincerely to fulfill the vision of our institute - "Education to excel."

Discipline is often considered as the cornerstone of a successful life, particularly for students who are in the formative stages of their personal and academic development. It encompasses a range of attributes - like self-control, responsibility, and the ability to focus on goals.

This newsletter is a platform to showcase a plethora of achievements, talents and various events that took place in our school in the recent time.

We congratulate all the students who brought laurels to our institution in academics, sports and various other co-curricular activities in the academic year 2024-2025. We are sure that they will keep striving for more such laurels as well as will motivate others to excel and reach newer horizons.

Science Based Activities

Science encourages curiosity. It invites students to question, explore, and seek answers to the mysteries of the universe. This curiosity, in turn, fosters critical thinking skills. Science activities makes students learn to analyse data, make observations, and draw evidence-based conclusions.

Joy of Giving

New Horizon Public School, visited Sanjeevan Deep - a foundation for disabled children and Little Angel Foundation as part of the school's Joy of Giving month. Our students donated food items and spent time interacting with the children. Our students expressed their heartfelt gratitude to the ancillary staff (housekeepers, maintenance, drivers, cleaners, care takers & security) by distributing snacks to all.

"It's not how much we give but how much love we put into giving."

-Mother Teresa

HEALTH CHECKUP
