I am delighted to present to you the second issue of our school newsletter for the academic year 2023-24, which highlights the various activities and celebrations that we have enjoyed and learned from in our school.

The past few months have been full of learning, fun, and achievements for our school. We have implemented the National Education Policy 2020 in our curriculum and pedagogy. We have also focused on the holistic development of our students by providing them with various opportunities and platforms to showcase their talents and skills. We have also inculcated the values and skills that are essential for their future success and happiness.

I am proud of our students for their enthusiasm, creativity, and excellence. They have participated and won in various inter-school, state-level, and national-level competitions. They have also performed well in their academics and co-curricular activities.

I am also grateful to our teachers and staff for their dedication, guidance, and support. They have been the pillars of our school and the mentors of our students.

I am also thankful to our parents for their cooperation, encouragement, and feedback. They have been the partners of our school and the supporters of our students. They have also provided valuable suggestions and inputs for the improvement of our school. They have also appreciated and acknowledged the efforts and achievements of our students and teachers.
